### **VACCINATIONS FOR HOME BOUND RESIDENTS OF JACKSON COUNTY**

Jackson County Health Department is pleased to announce a program to provide COVID-19 vaccinations to Jackson County residents who are home bound. Very specific eligibility qualifications will apply. Only residents who rarely or never leave their home, or those who's transport would require a significantly taxing effort, are eligible for this service. If you are a home bound Jackson County resident who needs a COVID-19 vaccination, or their care giver, please call (618) 684-3143, Ext. 111. Please be prepared to leave the care giver's name and contact information, the patient's name, and address. Your call will be returned and a personalized assessment will be provided.

The service is available to home bound persons age 12 and older. No fees apply, and insurance information is not collected. This service will be available for a limited time, so those interested should not delay.

For those who have mobility issues, but who can leave home, JCHD offers curbside service for vaccinations. To make curbside service arrangements, please call (618) 684-3143, Ext. 150.
